SKILL SET

- Front End: React, Angular, Next.js, Django, Vite, HTML, CSS, JavaScript, TypeScript, C#, Phaser Js, Flutter, Dart, Unity, Bootstrap, Tailwind CSS, Socket IO, Python, Flask, VR/AR.

- Back End: Node, Express, Firebase, ASP.NET.

- Database Programming: MySQL, SQL, MongoDB.

- Source Control: Git, GitHub, GitLab.

- Tools: Visual Studio, Visual Studio Code, MS SQL, SQL Studio, Jira, XAMP Server, Jupyter Notebook & Extensive knowledge of Agile and Scrum development methodologies.

Work Experience

- **Teaching Assistant (Nov 2021 – Jun 2022)**
  Mentored the **120+ plus students** during the programming fundamental & object-oriented programming duration of 4 months each (total 8 months).
- **SDE Intern @TIERS Limited (Jun 2023 – Aug 2023)**
  During my SDE internship at TIERS Limited from June to August 2023, I was actively involved in developing web applications using React and HTML/CSS/JS. My responsibilities included working with MongoDB and SQL databases, as well as implementing Stripe payment gateway integration. This experience allowed me to enhance my skills in frontend and backend technologies while gaining practical exposure to e-commerce and payment processing solutions.
- **Two Years of Work as a Full-stack web/game developer**   **Present**
  Two years of diverse and enriching freelancing experience. Harnessing my skills to deliver high-quality projects across various domains. This journey has allowed me to thrive independently while collaborating with clients to meet their unique needs effectively.
